

# WHY CHOOSE US

## 5 GOOD REASONS TO CHOOSE US

### ONE PARTNER FOR ALL YOUR PROCESSING NEEDS

From metal spinning works to the 3D Laser cutting, we handle everything in-house. More control, fewer steps, clear and reliable deadlines.

### 70 YEARS OF EXPERIENCE AND COUNTING

Three generations, one attitude: innovating while remaining reliable. Our know-how grows together with our people and our technology.

### FLEXIBILITY TAILORED TO YOUR PROJECT

From prototypes to large-scale production, we handle every project with the same level of accuracy. Adapting is in our DNA.

### QUALITY YOU CAN SEE, TOUCH AND MEASURE

Each piece is inspected, finished and designed to last. The difference lies in the details, and we know them very well.

### A RELATIONSHIP WORTH MORE THAN A SINGLE SUPPLY

Talking to us means talking directly to the manufacturers. We listen, we advise, we solve. Dedicated consultants are available on every project.

PROFILE

70 YEARS OF EXCELLENCE  
IN 2026, WE CELEBRATE  
OUR 70<sup>TH</sup> ANNIVERSARY.  
PROUD OF THE MILESTONES  
ACHIEVED ALONGSIDE OUR CLIENTS,  
WE ARE READY TO EMBRACE  
THE FUTURE OF THE LIGHTING  
MARKET WITH THE SAME  
PRAGMATISM AND DETERMINATION  
THAT HAVE DEFINED OUR HISTORY  
FOR SEVEN DECADES.

## ONE PARTNER FOR ALL YOUR METAL APPLICATIONS

Since 1956, we have combined craftsmanship with cutting-edge technology in metal spinning.

Building on three generations of entrepreneurial expertise, we have constantly evolved our capabilities. By integrating metal spinning, 3D laser cutting and advanced fabrication processes, we provide a comprehensive manufacturing cycle from raw material to finished design components.

### Your one-step technical partner

We are the strategic partner for every stage of your project. Our workflow covers everything from technical consultancy and prototyping to large-scale production and bespoke part manufacturing. We are proud to collaborate with leading Italian and European companies across the most demanding sectors: Lighting, Interior Design, Bathroom Fittings, Electric Motors and Mechanical Industry.

**Quality is our starting and finishing point.**  
We oversee every detail with artisanal passion, supported by high-precision machines.

We bridge the gap between long-standing experience and a forward-thinking approach, focused on solving complex challenges and building transparent, long-term business relationships.

## THE VALUES OF EXCELLENCE

We believe in the value of a job well done and turning technical challenges into seamless solutions. Every component reflects our unique Italian journey of craftsmanship, evolving technology, and trust built over time, while honest and transparent collaboration ensures quality and reliability in every project.

# VALUES

### A FAMILY BUSINESS

For three generations, our family has worked with unwavering commitment. Continuity is our greatest asset: a living legacy of shared knowledge that evolves and renews itself through time.

### FLEXIBILITY & BESPOKE SOLUTIONS

We move beyond standard solutions. We adapt to our client's unique needs through agile processes and an open-minded approach, turning every complex request into a perfectly engineered reality.

### PARTNERSHIP & TRUST

Delivery is not the end of a transaction, but the beginning of a partnership. We build long-lasting relationships founded on expert consultancy, mutual respect and tangible high-quality results.

### AUTHENTIC ITALIAN EXCELLENCE

Every Casati's product is born from a curated supply chain that celebrates Italian craftsmanship. Without compromise, our expertise blends industrial efficiency with peerless artisanal skills.

### UNCOMPROMISING DETAIL

Details are never an afterthought. Every shape, surface and finishing reflects the precision and the passion we put into every single project.

### RELIABILITY & TIMING

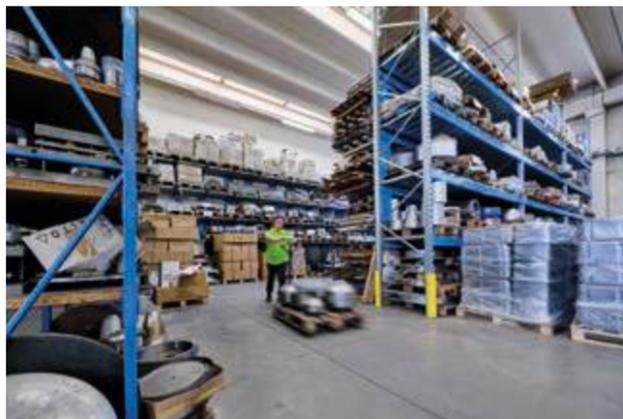

In our industry, time is respect. Punctuality is a core commitment. A fundamental value for those who choose a partner they can truly rely on.

### TECHNICAL PROBLEM SOLVING

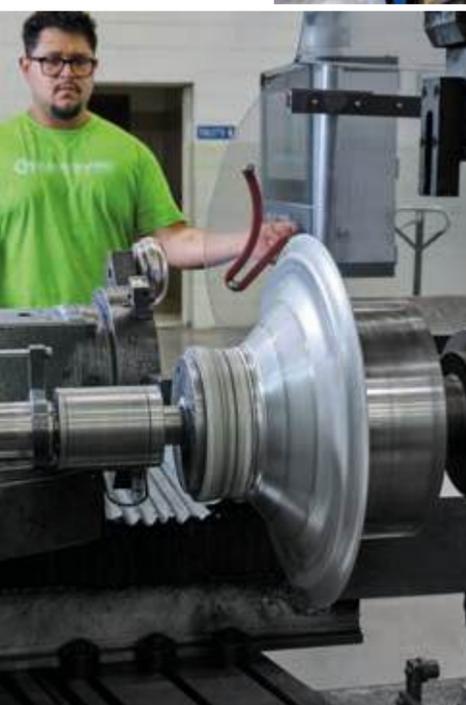

Every project brings its own set of challenges. We tackle them with decades of experience, technical ingenuity, and the intuition needed to find the optimal solutions.

### CRAFTSMANSHIP

The human hand is still behind every machine. This hand feels the metal, checks it, refines it, and adds character to all of Casati's pieces.

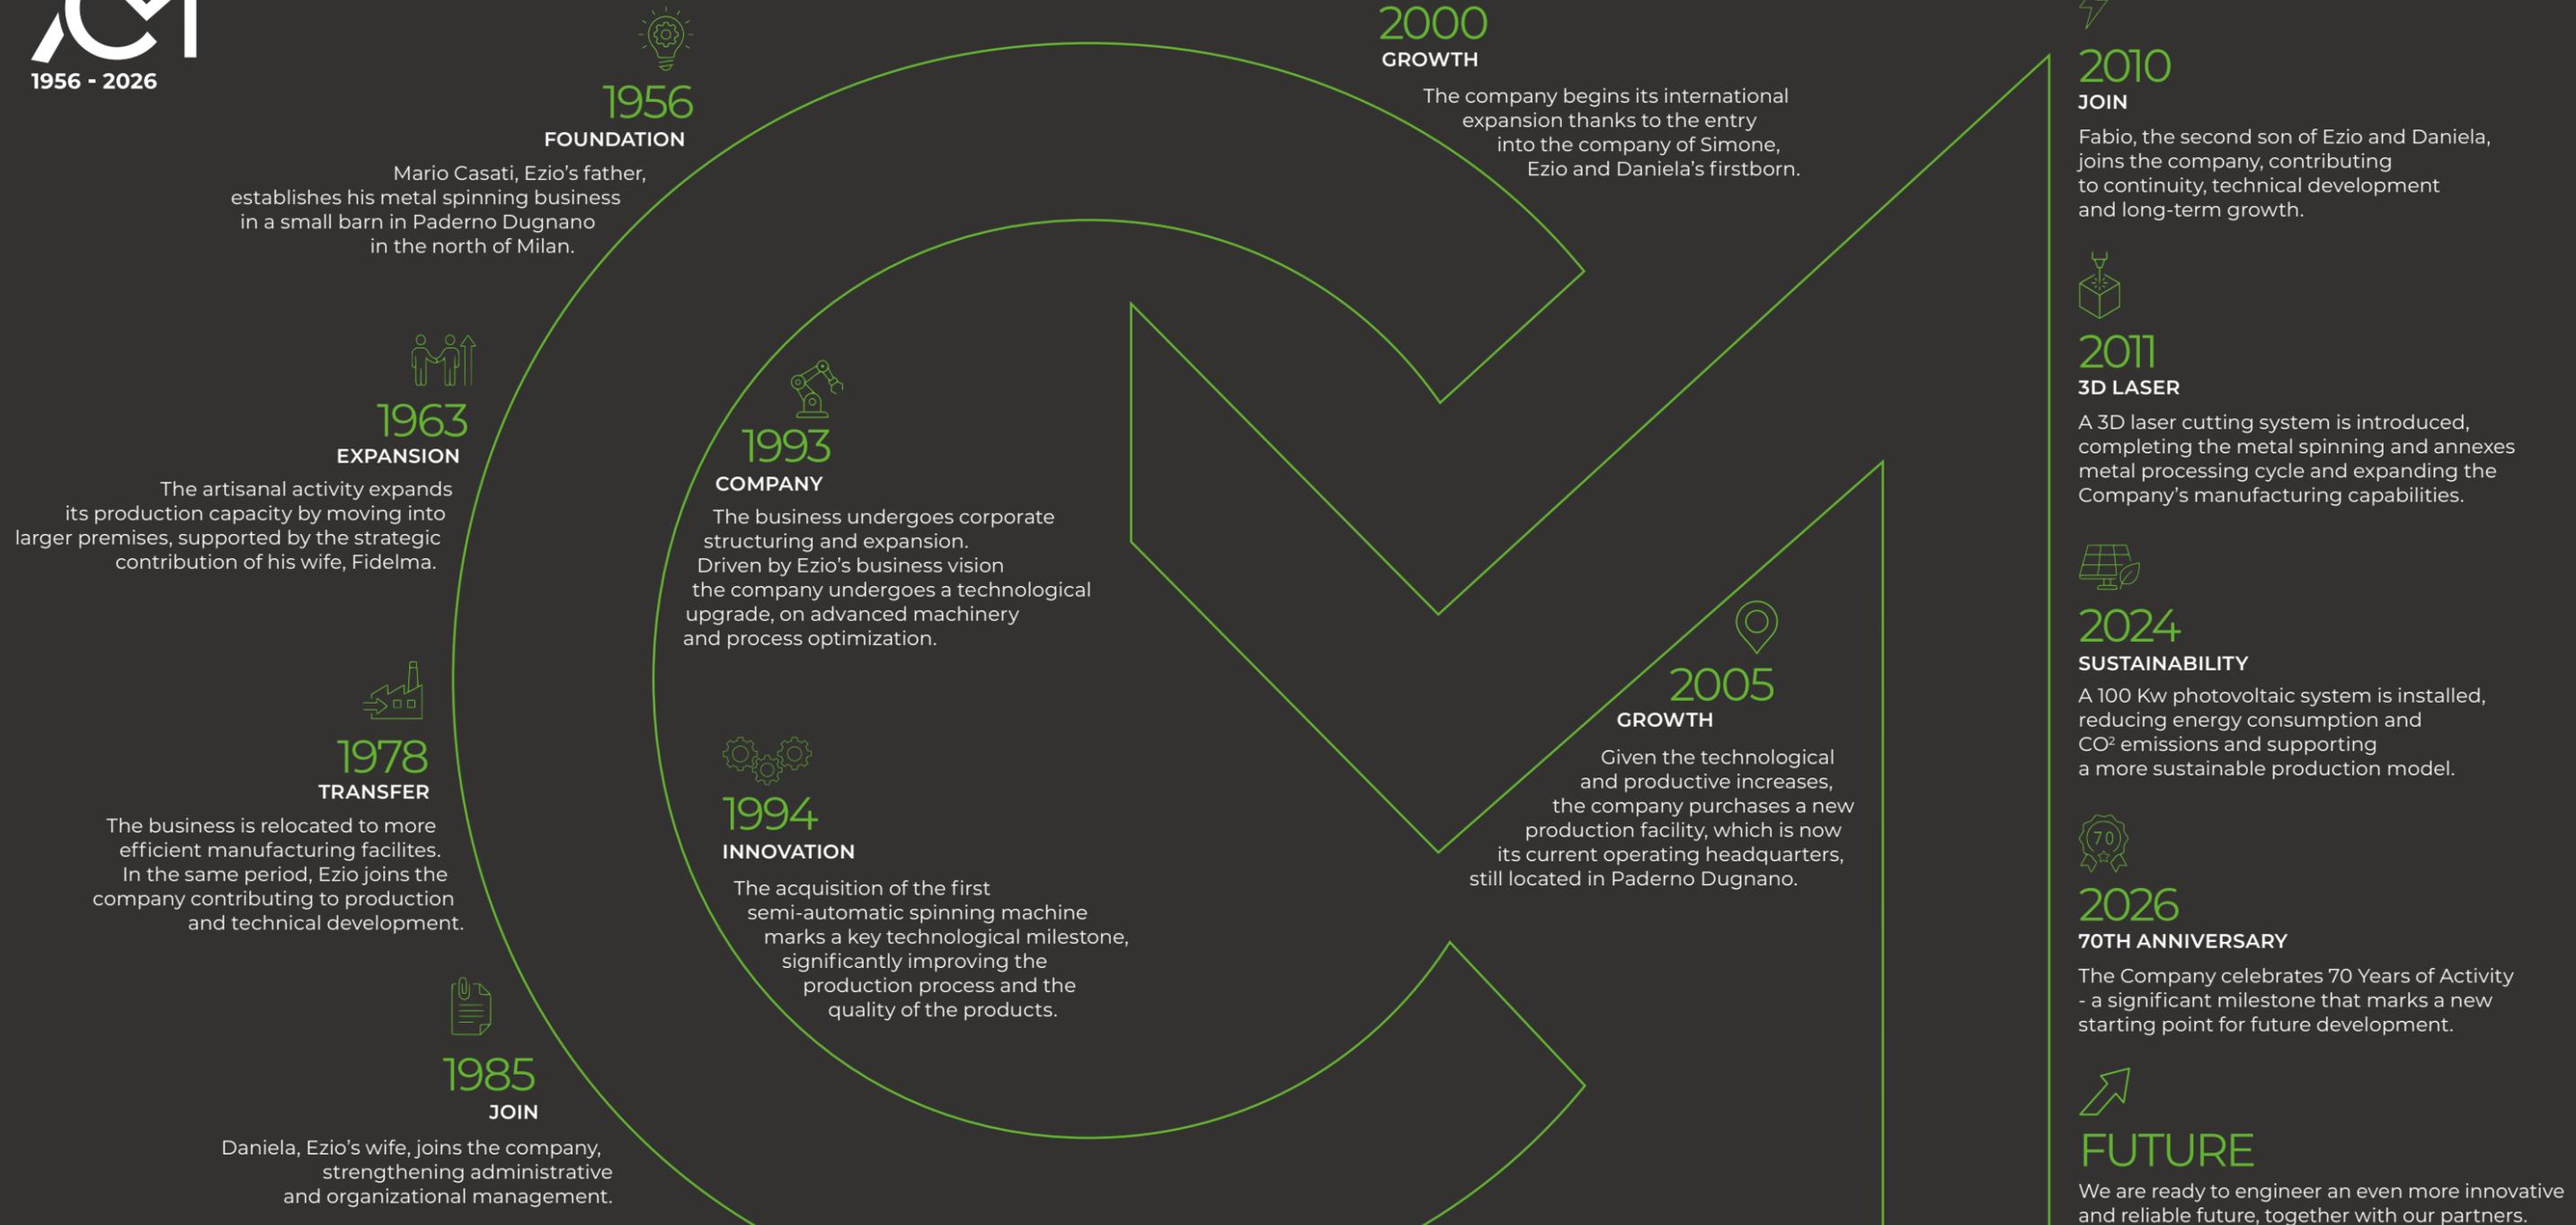

# METALWORKING SOLUTIONS

# HISTORY

## A CONSTANT EVOLUTION

## MANY GENERATIONS OF SKILLS, THE SAME PASSION

The true strength of our company lies in the continuity between generations. Since 1956, experience, technical know-how and craftsmanship have been passed down, while each new generation has introduced innovation, new skills and a forward-looking vision.

This ongoing exchange between experience and innovation has shaped the company's growth, ensuring technical reliability, continuous improvement and long-term consistency.

OUR GOAL IS TO PLACE OURSELVES EVER MORE FULLY AT THE SERVICE OF OUR CUSTOMERS, WITH AVAILABILITY, ATTENTION AND DETERMINATION. WE WORK CLOSELY WITH OUR PARTNERS TO UNDERSTAND THEIR NEEDS IN DEPTH AND TO DELIVER THE MOST EFFECTIVE SOLUTION – OFTEN TAILORED, AND NOT NECESSARILY THE STANDARD ONE.

## TRY OUR CONSULTING SERVICES TO GET A TAILORED-MADE SOLUTION FOR EVERY SECTOR

Here at Casati, we turn our experience into great advice.

We support designers and technical departments in selecting the most suitable manufacturing processes, by suggesting technical optimizations aligned with the functional and industrial requirements of each project. Our goal is to facilitate products industrialization and subsequent market phases, while maintaining control over production efficiency and final costs.

Each project presents specific functions, constraints and priorities. For this reasons at Casati Mario we integrate the spinning metal process and the 3D laser cutting technology with manufacturing expertise developed over more than 70 years of experience, ensuring precision, consistency and reliability.

Over 70 years of activity, we have developed numerous spinning moulds that, in many cases, can be directly used by our customers.

We process iron, aluminium, brass, copper, stainless steel and lead according to specific application requirements. Material thickness ranges from 0.4 mm to 5mm for aluminium and up to 3mm for iron and stainless steel. We are also equipped to process metal discs with diameters up to 1200mm, enabling the production of large and complex components.

The outcome is consistently the same: clean, precision and reliable components, fully ready for integration to your production processes.

## METALWORKING EXCELLENCE

We have always been mindful about our sector's evolution and the technological innovations that allow a qualitative production advancement. Our offer is based on specialisation, comprehensiveness and service, to meet the specific needs of our customers in the most different and competitive markets.

**We are a metal spinning company supported by a full range of technologies and machinery for complete sheet metal processing.**

We process iron, aluminium, brass, copper, stainless steel and lead. We act as a single-source supplier, managing the complete sheet metal processing cycle in-house, reducing logistics, handling and unnecessary transportation.

**Casati goes green!**

# TECHNOLOGIES AND PROCESSES

70 years of experience, providing molds and equipment to support our customers.

### Metal Spinning

from 0,4mm to 5mm of thickness in aluminium and from a few tenths up to 3mm of thickness in steel, stainless steel, brass, copper, lead - Maximum disc diameter 1200 mm

- Automatic machines
- Semi-automatic machines
- Manual machine

### 3D laser cutting machines

6 axes - cut material up to 3mm of thickness: aluminium, steel, stainless steel, brass

- Cutting path simulation
- Collision control and correction
- Cutting precision

### 2D laser cutting machines

- Cutting on aluminium, iron, stainless steel, brass
- Cutting till 1500mmx3000mm and maximum 3mm of thickness
- High precision during the cutting working process

### Metal Carpentry

- Shearing machines
- Rounding machines
- Cutting machines
- Rolling machines
- Multi-tool punch machines
- Deep drawing presses up to 80 Ton
- Punching presses
- Welding machines

### Custom Finishing

We collaborate with a network of qualified external suppliers to provide metal finishing treatments.

# QUALITY

## QUALITY IN EVERY DETAIL

**Here at Casati Mario, quality is not just a result, it is a way of working. It starts from carefully selecting our raw materials and suppliers.**

It grows with every stage of the production process, and is immediately recognisable: by looking and touching the parts we make, and their solidity.

Every process is carefully inspected, because we know that precision cannot be improvised. It is built with method, experience and shared responsibilities.

Precision, care and attention to details define every stage of our manufacturing process. Each component is crafted to meet the highest standards of quality and reliability.

Our quality is the result of advanced technologies combined with over 70 years of experience, continuously renewed through generations of expertise, innovation and passion for metalworking.
